SUPUN NIMANTHA

FULL-STACK SOFTWARE ENGINEER

WORK RIGHTS : OPEN WORK VISA (03.06.2026 - 03.06.2029)

I'm a dedicated, competent, goal-oriented and highly-skilled individual with a sound foundation of developing systems as a full-stack software engineer over 10+ years of experience and now I'm seeking for a committed opportunity to make a positive contribution to an organization. I possess demonstrative, initiative, leadership and organizational skills and I'm willing to accept all challenges with a focus on meeting and achieving objectives. I can't do something halfway, three-quarters, nine-tenths. If I'm going to do something, I go all the way.

WORK EXPERIENCE

FoodME Ltd (DIY Meal Kit Favour), Auckland, NZ 2025.11 - 2026.03

Full-Stack Software Engineer Intern

- Built multi-retailer support (Woolworths & New World) enabling recipe-to-product mapping and store-based pricing in a React Native app.
- Developed web scraping pipelines (Python, Selenium) to extract and process thousands of supermarket products.
- Implemented AI-assisted ingredient-to-product tagging using OpenAI with validation, filtering, and confidence scoring.
- Designed supplier-aware workflows including caching, filtering, and New World cart integration with authentication handling.

- React Native Django Python Selenium OpenAI Redux MySQL
- AWS Lambda Serverless REST APIs

AvanSight Inc., CA, USA 2020.04 - 2025.04

Team Lead Software Engineer and Offshore Manager

- Built the prototype Clinical Trial System that led to the founding of AvanSight, which later expanded into a multi-company platform.
- Formed, led, mentored, and managed a high-performing offshore team, fostering a collaborative and results-driven work environment.
- Gathered requirements, created and allocated tasks, and facilitated Agile processes (Daily Scrum, Sprint Planning, Jira Scrum Board, Confluence).
- Conducted code reviews, wrote unit tests, and facilitated knowledge-sharing.
- Delivered product demos, led technical interviews, and organized events.

- jQWidgets Gulp LESS Bootstrap AMCharts AG Grid Agile Jira Scrum

Fajar Agung Group, Indonesia - (Multiple Contracts) 2017 - 2025

Full-Stack Software Engineer (Remote)

- Led the development of a mobile app and web platform for real-time field staff tracking, task management, and performance monitoring, featuring GPS logging, attendance tracking, offline sync, and Google Maps integration.
- Built an enterprise Fleet Management System incorporating inventory and warehouse management features, with bilingual support (Indonesian/English), real-time reporting, and role-based access control.
- Developed and extended an Inventory Control System, adding new modules and enhancements to support operational efficiency.

- ASP.NET MVC SQL Server Bootstrap Entity Framework React React Native
- Next.js NativeWind MySQL Docker Firebase jQuery AWS EC2,RDS,R53

EDUCATION

- 2014
OCPJP Certification
- 2012 - 2015
BSc in Management Info. Systems
GPA : 3.58
University College Dublin, Ireland
- 2025 - 2026
Master of Software Engineering
Results : 7 A+ and 1 A
Yoobee Colleges, Auckland

SKILLS/ATTRIBUTES

- Fast Learner and Quick Adopter
- Leadership Skills and Teamwork
- Self-Motivated and Dedicated
- Time Management
- Effective Communication
- Problem Solving and Critical Thinking
- Minimal Supervision
- Mentoring

REFERENCES

- Available Upon Request

Hostgsm LLC, USA - (Multiple Contracts)

2017 - 2025

Full-Stack Software Engineer (Remote)

- Led development of a Transport Reservation & Dispatch SaaS platform, migrated a legacy bus booking system, and added VOIP/SMS, dashboards, and multi-tenancy.
- Enhanced a bus booking web app with new modules, UI, and responsive design.
- Converted a desktop bus booking app into a web-based solution.
- Developed desktop apps including an Inventory Lookup system and Bus Booking system to improve operation.

WinForms WEB API EF Core SQL Server React Next.js Docker MySQL

Andere Corporation, USA - (Multiple Contracts)

2017 - 2019

Full-Stack Software Engineer (Remote)

- Enhanced the Employee Handbook Creator to support compliance across 49 U.S. states, adding company profile and user-level management features.
- Developed a questionnaire-based Employee Handbook Creator tailored for Texas compliance, with automated Word file generation and AWS deployment.

ASP.NET MVC Entity Framework SQL Server jQuery Bootstrap AWS EC2

NewGLink Corp, USA

2019.02 - 2019.04

Full-Stack Software Engineer (Remote)

- Developed a BCBA (Board Certified Behavior Analyst) web portal for tracking school children's behavior, featuring real-time chat and reporting.

ASP.NET MVC Entity Framework SQL Server jQuery Bootstrap SignalR2

WorkInDK, Denmark

2017.01 - 2017.12

Full-Stack Software Engineer (Remote)

- Built Job Recruitment Web Portal for candidates and companies, with profile creation, resume builder, notifications, search, PDF generation, and reporting, deployed on One.com hosting with database backups.

ASP.NET MVC Entity Framework SQL Server jQuery Bootstrap RDLC

EmetSoft, Sri Lanka - (Multiple Contracts)

2016.02 - 2019.07

Trainee / Full-Stack Software Engineer

- Integrated a payment gateway for online rate payments and enhanced the municipal ERP system.
- Developed and modernized ERP modules for finance, HR, tax, municipal councils, and licensing, migrating legacy VB6 modules to VB.NET.
- Built a Field Service Management System with a web-based back office and Android app for real-time tracking, job assignment, attendance, and leave management.
- Delivered a Cemetery Management System for Colombo Municipal Council with Google Maps and DroneDeploy integration.

ASP.NET MVC Entity Framework SQL Server jQuery Bootstrap Android
Crystal Reports VB6 Google Map APIs Drone Mapping Payment Gateway

National School of Business Management

2014.11 - 2015.04

Programming Instructor

- Taught programming fundamentals and practical coding to BSc students, and supported lab maintenance and exam administration.

Fiverr.com

2014.01 - 2023.08 (Paused)

Freelance Software Developer and Tutor

- Completed 650+ projects and conducted nearly 100 online programming lectures.
- Maintained a 5/5 rating with consistently positive client feedback across all projects.
- Worked directly with a diverse and extensive client base across multiple sectors.
