To whom it may concern

10/02/2026

I am writing to confirm that Mr. Hikkaduwa Vithanage Supun Nimantha (NIC: 911582511V / Passport: N10798899) has been an integral part of our team, serving as a remote full-stack software engineer on multiple occasions since October 2017. His initial work with us was carried out through the Fiverr freelance platform, and later, we worked with him directly. The details of his engagements are outlined below:

Engagement Timeline and Responsibilities:

1. **12/10/2017 – 31/03/2018**
   - Developed and maintained an inventory control system, including report generation, system modifications, and bug fixing.
   - Responsible for server maintenance and the development of various utility tools to support system operations.
2. **01/09/2018 – 30/10/2018**
   - Worked on modifications for the previously built inventory control system, including report generation, bug fixing, and system improvements.
   - Managed server maintenance and developed additional utility tools to enhance system operations.
3. **01/04/2019 – 31/12/2020**
   - Developed fleet management and warehouse management web applications using ASP.NET MVC 5, including various reporting modules.
   - Created utility tools for internal use, handled server maintenance, software modifications, and provided remote technical and IT support.
4. **01/04/2025 – 31/12/2025**
   - Developed LMNV field service management web and ReactNative (Android) app.

We will continue to contact Mr. Nimantha for any modifications or new system development as required. Currently, he is responsible for maintenance and IT support as needed.

If you require further details or verification regarding Mr. Hikkaduwa Vithanage Supun Nimantha's time with us or his contributions, please feel free to contact me via email at ricky@fajaragung.co.id or directly at +62812 8783 878. I'd be happy to provide any necessary information.
